Unit -4

Part -A

1. What are the benefits of Information System.
2. List the three characteristics of information?
3. What are the three key aspects of information.
4. Compare Data and Information presentation.
5. What is the purpose of Information System?
6. What are the characteristics of Information System?
7. List the three key functions of an Information system.
8. What are the main functions related to Information.
9. What are the three threats to Information Systems?
10. What is Information System Design?
11. What are the challenges of Information System?
12. List out the advantages and disadvantages of Information Management Systems.
13. What are the Four components of Information System?
14. What are the types of Information Design?
15. What is Process Control System?

Part -B

1.a .Explain in detail about (i) Information Technology (ii) Information System

b. Differentiate between Information System and Information Technology.

2.Discuss in detail about the classification of Information System.

3.Explain in detail about the four types of Information Systems and facts of Information System.

4.Describe the features and functions of Information Systems.

5.List out the components of Information System with neat diagram.

6.Discuss in detail about the Systems Development Life Cycle with architecture diagram.

7a.List out the Limitations of Information System and explain.

b.Discuss in detail about   future Information System and Information Technology.

Unit -5

Part –A

1. Define Groupware.
2. What are the five components that make up an Information System ?
3. List some examples of Information System network.
4. List out the characteristics of Transaction Processing System .
5. What are the seven types of Information Systems used in Business ?
6. List out any five Enterprise Communication Tools.
7. What are the different types of Collaboration Tools ?
8. List out the GroupWare Tools.
9. Define External Communication.
10. List out the Video and Web Conferencing Tools.
11. What are the use of Decision Support System.
12. What are the Different States of Transaction?

Part –B

1. Discuss in detail about Information System for Business Operations.
2. Explain in detail about Enterprise Conferencing Tools.
3. Explain in detail about Transaction Processing Systems.
4. Compare Enterprise Communication and Enterprise Conferencing tools with suitable example.
5. What is Group Ware? List out the types of Group Ware and Explain.
6. Explain detail about Enterprise Communication Tools.
7. What is collaborative work management tools? Explain with Example Tools.
8. Explain in detail about Online Analytical Processing.
